8'-0" max. span for
R-Control SIP header, See
Load Design Chart #5.

R-Control
SIPs.

Posts supporting
header. Designed
for specific load
case.

Bottom plate.

R-Control SIP
infill below
window openings,
install prior to
headers.

NOTE: Diagram represents headers in
a wall assembly. Refer to detail
SIP-112a. Minimum dimensions are
not required between openings, but the
posts supporting the header must
extend to the floor. The bottom plate
of the header must extend to the
outside of the post.
